CONTENTS

Tectonophysics Volume 229

Research Papers

Natural calcite *c*-axis fabrics: an alternate interpretation
B. Lafrance, J.C. White and P.F. Williams 1

Semibrittle and cataclastic deformation of hornblende-quartz rocks in a ductile shear zone
H.A. Babaie and T.E. La Tour 19

Rotation of the Oman ophiolite and initial location of the ridge in the hotspot reference frame
M. Perrin, M. Prevot and F. Bruere 31

Defect structure and deformation mechanisms in naturally deformed augite and enstatite
W. Skrotzki 43

Petrochemistry and tectonic significance of Cretaceous island-arc rocks, Cordillera Oriental, Dominican Republic
M.C. Lebrón and M.R. Perfit 69

Further applications of the stochastic stress release model to historical earthquake data
X. Zheng and D. Vere-Jones 101

Deep crustal earthquakes associated with continental rifts
D.I. Doser and D.R. Yarwood 123

Letter Section

Radial cracks around chromite inclusions in olivine from a Variscan peridotite shear zone in the Ivrea Zone, northern Italy
A.S. Wendt and U. Altenberger 133

Book Review

Paleomagnetism of the Atlantic, Tethys and Iapetus Oceans, by R. van der Voo–Y. Otufuji 139

Publisher's note i

Research Papers

Microstructures and *c*-axis fabrics indicative of quartz dissolution in sheared quartzites and phyllonites
J.F. Hippertt 141

The behaviour of rigid triaxial ellipsoidal particles in viscous flows—modeling of fabric evolution in a multiparticle system
J. Ježek, R. Melka, K. Schulmann and Z. Venera 165

Interplate coupling in the Kanto district, central Japan, deduced from geodetic data inversion and its tectonic implications
S. Yoshioka, T. Yabuki, T. Sagiya, T. Tada and M. Matsu'ura 181

Episodic uplift deduced from Holocene shorelines in the Perachora Peninsula, Corinth area, Greece
P.A. Pirazzoli, S.C. Stiros, M. Arnold, J. Laborel, F. Laborel-Deguen and S. Papageorgiou 201

Tectonics of the Zagros orogenic belt of Iran: new data and interpretations
M. Alavi 211

Magnetic and magmatic structures of the Emas granodioritic pluton (Cachoeirinha belt, NE Brazil). Relationships with Pan-African strike-slip fault systems
Ph. Olivier and C.J. Archanjo 239

Late Oligocene–Early Miocene compressional tectosedimentary episode and associated land-mammal faunas in the Andes of central Chile and adjacent Argentina (32–37°S)
T. Sempere, L.G. Marshall, S. Rivano and E. Godoy 251
